The Grand Bargain in 2022: Remaining gaps

The Enabling Priorities

No 'critical mass' of quality funding reached

No participation revolution

No increase in direct funding to local actors

Why?

Poor data and reporting

No connection to country level

Too much focus on technical v. political

Lack of incentives for change

No confidence in the quid pro quo

The wider funding context

Funding still not keeping pace with humanitarian needs

Funding still not equitably distributed between crises
